

Mother Loss

Healing support for daughters

Losing a mother leaves a huge hole in the heart. For daughters, the death of a mother is especially impactful. This six-session workshop provides a safe, supportive environment where healthy women can come together to share their stories, learn about the grieving process, and work through their feelings. By using the wisdom of stories and expressive techniques, this workshop provides an opportunity to acquire a deeper understanding of loss and to reconcile it with normal everyday activity.
