People who are grieving can be especially vulnerable to outside stressors, such as the uncertainty caused by COVID-19. Hospice of the Valley is offering a Zoom online presentation to help you cope with the loss of a loved one during this challenging time. Learn what loss is about, why it is necessary to express grief, and what we can do to help others who are experiencing loss. This presentation is accessible from the comfort of your office or home and designed to support any adult in our community who may be mourning a death. You are not alone on this journey. We are here to help.
