

Remembrance Poster

Materials

Options: Markers/something to color with, large piece of paper, many small pieces taped/glued together, a piece of cardboard, anything you can draw on!

Procedure

Grab a large thing to draw on (see above) and something to color with – paint, makers, crayons, pens

Sit together at a table or on the floor. Take 10–15 minutes to discuss the attributes, characteristics and favorite memories of you loved one.

Then illustrate their discussion on the paper!

Take time to share about your contribution to the poster as a family.

Express how this experience was for you; what similarities and differences did you notice amongst your family members? Did you learn anything new?
